Head of Operations | CEO Partnership & Executive Support | Cross-Functional Systems | Operational Standardization

SUMMARY

Operations leader with a track record of building and standardizing operational infrastructure from scratch in partnership with founders and executives, translating high-level organizational vision into structured, repeatable systems that scale across functions and business units. Experienced designing and implementing cross-functional operating frameworks, CRM and workflow systems, process standardization initiatives, and internal communication structures that bring consistency and visibility to fast-moving organizations. Has built operational systems across multiple CRM platforms from completely blank instances, demonstrating the ability to learn any system architecture quickly and design scalable infrastructure without being constrained by prior tooling familiarity. Brings a disciplined, iterative approach to operations: every system is built with measurement and feedback loops from the start, enabling continuous improvement grounded in actual performance data. Equally comfortable partnering with a CEO at the strategic level and executing operational detail at the individual contributor level. Thrives where the mandate is to bring order, standardization, and scalable process to a complex, growing organization.

CORE COMPETENCIES

Operations Management | Process Design & Standardization | CEO & Executive Partnership | Cross-Functional Coordination | CRM Architecture (Salesforce, Zoho, Membrain) | Systems Implementation from Scratch | Workflow Automation | No-Code Development (Softr) | AI-Assisted Operations | Multi-Entity Operations Support | Internal Communications Design | KPI Framework Development | Reporting & Dashboard Build | Team Leadership & Coordination | Change Management | Project Management | AI Strategy | GTM Strategy

PROFESSIONAL EXPERIENCE

HÜMNZ — Carlsbad, CA (Remote)

Senior Director, Strategic Growth

Feb 2026 – Present

Director of Operations

May 2025 – Jan 2026

- Served as the operational counterpart to the CEO, translating executive vision into structured organizational systems across sales, client success, marketing, and internal operations, functioning as the primary driver of cross-functional execution in a lean, fast-moving environment.
- Built the company's operational infrastructure from scratch, starting from a completely fresh Membrain CRM instance and zero established process, designing pipeline architecture, workflow systems, communication protocols, performance tracking frameworks, and reporting dashboards that gave leadership consistent visibility into organizational health and execution quality.
- Translated the CEO's vision of how the sales and client success motions should work into documented, executable operational systems, conducting structured discovery sessions to extract and clarify intent, then designing the processes, stage definitions, and goal frameworks that turned strategic direction into repeatable execution.
- Designed diagnostic scorecard frameworks and operational readiness assessments used to evaluate and standardize organizational processes, providing structured tools for identifying gaps and prioritizing operational improvements across business units.
- Deployed AI-powered automation workflows across operations including automated research pipelines, content generation systems, and workflow tooling, increasing execution capacity and reducing manual effort across key operational functions without adding headcount.

NACB — Remote*Director of Client Success*

Oct 2023 – Sep 2024

- Led cross-functional operations across sales, outreach, and client engagement functions, managing a team of 4 and designing the process frameworks, escalation workflows, and performance reporting structures that standardized execution and improved coordination across the organization.
- Rebuilt end-to-end operational systems from scratch using a blank Zoho CRM instance, designing pipeline architecture, stage progression criteria, workflow automation, and reporting dashboards from first principles, establishing a single source of truth for organizational performance visibility.
- Implemented a centralized cross-departmental software solution that consolidated previously siloed data and processes, streamlining operations, reporting, and team coordination workflows across multiple business functions simultaneously.
- Signed 56 accounts within 4 weeks of launching the first subscription offering in beta, demonstrating rapid operational execution capability when systems and processes are correctly designed and aligned to organizational goals.

Springbig — Remote*Client Success Manager / Retail Account Manager*

Feb 2022 – May 2023

- Operated within a structured SaaS organization managing a portfolio of 86 B2B accounts, maintaining CRM documentation, account health dashboards, and renewal workflows that supported accurate forecasting and consistent organizational visibility across a large book of business.
- Generated \$250K+ in expansion ARR through structured account planning and cross-sell execution; coordinated cross-functionally between product, marketing, and client teams to deliver on client needs, developing direct experience operating within a multi-function organization.

McKinney Alternative Investments — San Diego, CA*Executive Assistant to Managing Director*

Jan 2021 – Oct 2021

- Supported executive operations across a \$55M real estate asset portfolio spanning California, Michigan, and Colorado, coordinating stakeholder communications, vendor relationships, deal logistics, and internal administration for a senior executive managing multiple investment entities.
- Conducted purchasing research and contract negotiations generating approximately \$38K in cost savings; contributed to \$100K in capital raised through strategic networking support.

Vujà Dé Digital — Greater San Diego Area*Associate Project & Account Manager*

Aug 2019 – Mar 2020

- Developed modular project workflows and implemented SOPs, templates, and automated task assignment schedules to standardize cross-departmental processes and ensure consistent, measurable on-time deliverable completion across client engagements.
